The knowledge and care of your technician, the equipment, products and method all make a difference in the final result to deliver you with a soft, plush, deeply cleaned carpet that you can be proud of. Pet odors, oil, grease, gum, coffee, wax, tea, wine, koolaid. We have an arsenal of the best products available today to deal with any problem you may have.

100% Safe, Non-Toxic & Biodegradable***Fast Dry Times!

The exclusive system brushes dry emulsified shampoo deep into the carpet.

Each fiber is deep cleaned from base to tip killing allergens and dust mites. The solutions can't harm you, your kids, pets or the environment. It contains no sticky residue that attracts dirt, dust, dander and other unwanted elements.

How most carpet cleaning technology is to soak the carpet on one side to the pile of carpeting and no cleaning character. It is like drinking a milkshake. The cleaning solution is left on the carpet and the carpet is left with a sticky residue, fresh carpeting like new.

It is so safe and effective it is widely used in hospital and health care facilities who demand the best!

Satisfaction guaranteed or price you can afford!
