QR Code Link to This Post We have a couch to give away. It comes from a smoke free house. This has been the basement couch since we moved into the house 8 years ago. It spent 98% of the time covered by a quilt with a cat and or dog sleeping on it. It could use a bit of cleaning and is showing threads. Prior to kids it was the "nap couch" in the previous two homes, I'll let the new owners figure out why. :-D

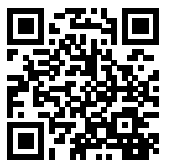

First come, no holds. Posting "Free" sign on it as well. I can help load it unless you show up in a ridiculous hauling vehicle, like a small.
