QR Code Link to This Post Please be extremely careful when using unlicensed ride services. I suffered a devastating injury as a result of a driver's sudden bizarre and reckless behavior. This individual posts on Craigslist under a variety of names but will most likely be driving a white Toyota Prius or an old Crown Victoria police cruiser. He pretends to be very likable and friendly at first but when he gets wound up he becomes extremely impulsive and starts to behave erratically. He also has a criminal history as well as a substantial amount of traffic violations. If you suspect that this is the person I've described don't even consider getting into a vehicle with.
