QR Code Link to This Post Looking to re-home my two cats. Female cat is 1 1/2 and male cat is almost 3. They had one litter together. They aren't spayed or neutered. Female name is Kaali and male name is Bear. They are unique cats. Female cat front paws have an extra toe. I am rehoming them because I can't afford them I lost my job. Bear loves to eat and will eat it all from Kaali if you let him. Rehoming fee of 60\$ for them both and their food and litter. If you only want one cat we might be able to work something out. For more info and pics contact me serious inquiries.
