QR Code Link to This Post We have a charming cottage-style keys home with a large tropical oasis for a backyard. Our property is very large and private with lush tropical landscaping. Pool, outdoor shower, hot tub, and a cabana with a queen size hanging bed for lounging. We are a half hour drive from Key West and our area is great for outdoor activities.

We live on the property and the lodging is a repurposed garage that has been transformed into an adorable little cottage. The cottage is a one-room efficiency that is painted in tropical colors. It has a queen-size bed, sofa, tv, mini kitchen, shower with a green friendly eco-toilet. The cottage has wireless internet, a/c and heat, dishes, pots/pans, cooking utensils, oil, spices, coffee-maker. It is a bit rustic but very charming and comfortable. Within walking distance is a little Cuban market, a dive shop and two restaurants with live music.

We are world travelers ourselves and love sharing our property with other travelers. We are very cool people and I am into the arts and my husband loves to cook and play beach volleyball. If you are interested in a vacation monthly rental for January, February or March please send us some information about yourselves along with which months interests you.

Prices:

January \$3,000  
 February \$3,500  
 March \$3,000
