QR Code Link to This Post I am in search of a white female 18 yrs or older who has had one or more digits amputated, either by trauma or surgical means. I would like to meet and discuss what the cause of amputation was and how it has affected oneself. I would also like to photo the affected hands or feet, and can meet anywhere convenient, and or in a public area for personal safety if desired. Will pay cash for an approximate one hour.

Female amputees needed,  
finger, toe, or thumb
