QR Code Link to This Post I'm looking for a roommate to take the second bedroom in this converted townhouse apartment. It's a great space with wood floors, washer/dryer, vaulted ceilings, a/c (and ceiling fans), a back patio, and a great landlord. It's very convenient to public transportation, university shuttles, and restaurants. Gas + electric + internet = about $100/month per person

I'm a graduate student at UMB and spend my spare time cooking or exploring Baltimore with friends. I'm a low key, quiet roommate and I keep the apartment.
