QR Code Link to This Post Hi, I have an 2 year old Australian Shepherd mix. She is a female, she is not spayed. Her dad was half lab half Aussie and her mom was full Aussie. She is crate trained, and house broke. She know, sit, shake and is learning to go to her crate on command, she does sometime, other times she ignores me, haha. She is good with kids and larger animals, and dogs. She has been attacking my chickens so I would not recommend her going to a home with poultry. She needs a fenced yard at least until she gets used to her new home. I have my goats and chicken together so when I let her out with the goats she goes after the chickens and I can't have that, it breaks my heart but I have to re-home her. Please contact me for more info or to come and meet her.

. Asking a rehoming fee of \$85. That's less than half of what I paid for her. I just want her to go to a good home. Sorry about the bad pics she was in the garage and it was getting dark.
