QR Code Link to This Post I have a like new medium 2014 trek Farley 6 that has been very upgraded. This was a \$2500 bike. I purchased it at George's and have loved every minute of owning this bike. I rode it year around and am only selling because I need the money. I hate to sell it. Nothing wrong with it and after owning this bike I sold all of my other bikes and rode this year around. Fat bikes are the future and Not just for snow...

Has SRAM COMPONENTS

2x10

X7 shifters

X9 rear

X0 front

Avid hydraulic disk brakes

Surley rolling Darryl wheels

Surly knard tires

Tubeless setup

Crank brothers pedals

Rockshox reverb dropper seat post

I will include the stock one as well

Upgraded bontrager RL bars and stem and seat post

Also has a nice front fender as well.

Everything works perfect on this bike and it is ready for an amazing bike for someone.
