QR Code Link to This Post Applebear Daycare (not yet licensed) would like to offer after school/evening care, from 3:45-7pm. I'm offering creative activities, outdoors play, homework help, lounge time, snacks, and dinner! This is a friendly and fun environment where your child will be free to be herself/ himself. I currently have 2 openings, so the group will be 3 children (including my son) until we grow into more :) I have experience with children who have special needs. I'm also earning my associates degree in behavioral health. I've had my cpr certificate for several years and will be renewing it soon.

Thanks!

Becky
