

Prefect Christmas gift 15 weeks old male and female Bengal Kittens. (Sangerville)

Location

Maine

<https://www.genclassifieds.com/x-776965-z>

QR Code Link to This Post Hi,

These female spotted kittens have a purebred Bengal dad and a purebred Ragdoll mom, the best of both worlds» Super cuddly with a fun playful side.

Theyre dewormed, have 1st vaccines, on wet and dry food and totally litter trained. Theyre ready to be played with, cuddled and loved by their new furrever family.

Theyre great with other kittys, kittens, cats, kids and got along with the puppy we fostered for a few weeks.

There is a discount for 2 together since kittens are great in pairs or with a furbuddy you already have at home to bond with.

There is a fee since they have had vaccines/dewormers and come from purebred parents that tested negative for fil/felv and have been vaccinated. Come meet them and see which kitten you bond with best. Were located in Maine.

***please include info about their future home with you and any pets theyll be living with.

Purrrfect Christmas gift!!

Right now, we have beautiful 11 weeks old male and female Bengal Kittens.

These kittens have free roam of the house, are not allowed outside.

They get the most love and time from us. You know that when they greet you when you come, even if they have

already been fed. We have young children in our home, We also know that slow transition may be necessary, even

though our cats are extremely obedient.

They both must find a home ASAP with a small rehoming fee.

Email now to reserve.
