hello I am in need of a computer guy to fix my laptop and desktop.

The laptop needs antivirus software and some viruses removed with external virus removal tool .

The desktop won't come fully on , some lights and a fan come on but nothing else. I tried unplugging it and plugging it back in and when I did it came on the same way . Plug it needs antivirus software and 1 virus remover or requarintined .

Some of the things I have to trade are dvds , Wilson winter leather jacket , kid or adult sport related picture frames , fishing lures , cds , plus some cash . Or maybe some work you may need done .

Text me or put contact info in your email and let me know what will work for you and if you want to come by and take a look and give estimate on the work .
