QR Code Link to This Post Our pit was picked up today by a woman who lied and sold it. Her ad is in the pics! Please call if you bought my dog from her! He needs his meds daily, and I posted him here and in lost and found prior to finding out about her selling him. She lied to cops, said the dog wasn't sold, that he got out of her yard. But she responded back to us before police involved saying he was rehomed already. Please bring our dog back to us. Please think of how bad it would be if it was you she stole it from. Police are involved but the purchaser is vital to getting him home. Her ad said Jessica and her number is 7.9.4.4.0.6.2 and if you google her number you'll see several ads of lost / found dogs she has. She lives on 2162 So Pennsylvania. Her name is really Jennifer Dodd or Rain. Call or text anytime if you bought him from her. Please take him to vet for meds if you won't return him..
