I warned the employees years ago to quit working for Marsh because it's evil crony owners encourage decadent life styles, while oppressing the innocent and poor.

Marsh stores were doomed because of the type of psychopathic and apathetic managers hired with only one selfish requirement: their unquestioned 100% loyalty and authority was to be freely given to satan blindly.

Those who know you and also your employees exposed your UNnoble lie and realized that you are evil.

Bad neighbors like Marsh and it's corrupted brotherhood always get exposed, sooner or later.

Since your customers know Truth and no longer buy at your stores or patronize your business, your ultimate doom and eternal damnation is near.

Numbers 32:23 ...you may be sure that your sin shall seek thee out.

The pope can't help you, his lies are getting exposed as well.

Try repenting directly to God, it's much more rewarding than being one of satan's minions within his evil cult society of psychopathic sycophants.

REPENT!!!
