QR Code Link to This Post Sears Craftsman 5HP Single Stage 4-Stroke Self-Propelled Snow Blower. Like new -- used lightly for a couple of years and stored for several years since I have been getting driveway plowed.

A 22" clearing path, 12.5" intake height and ability to take in 8-10" of snow make this Craftsman® snow thrower ideal for light/medium snow. Briggs & Stratton 4-cycle engine delivers the convenience of no mixing gas and oil, reduced vibration and noise, and lower emissions for better performance.

- 5.0 hp 4-Cycle Briggs & Stratton Engine -- very smooth and quiet
- No mixing of oil & gas
- Electric Start -- but starts first pull without it
- 22" Clearing Width -- throws snow a long way
- Single Stage Auger -- self-propels
- Directional Chute with crank angle adjustment

Email or call ... serious inquiries only! If this ad is visible then the snowblower is still available... I will delete the ad when sold.
