QR Code Link to This Post I'm hoping I can find someone who is interested in coming to our place and getting our horses riding in the foothills for us. We had them going two years ago, but my horse was injured and out of commission for 6 months, then I had surgery, so she hasn't been ridden much in the past year. She is awesome though and well trained so shouldn't take much to get her going again. We also have my daughter's horse who is mostly used for arena work, but we would like to make sure she is also safe on trails. Ideally I would like to have someone come and get them going then maybe take the both of us out on trails this spring with you on your horse to make sure we are confident and ready to go it.
