 We all need to do this.

This is why telling your story on your web site, blog, Facebook, reviews, everywhere is so important. As much as BadVets would like to silence us, or control or the conditions under which we speak, they cannot. They control state boards. "Pets as property" works for them in the legal system. But they cannot stop us from speaking out.

I will Never stop Warning people.
 Our precious pets are being killed because of the incompetents of thus Veterinarian.
 This has happened so many times at AVC 55 Carl Dr Manchester NH. And Concord nh

Deborah kelloway is the owner. She allows unlicensed unqualified help to practice on our pets . Yes it's true.

Deborah kelloway has many lawsuits and complaints filed with the veterinarian State board and Attorney general's office it is all public information. Don't trust this place you will regret it. She thinks she is above the law. Karma will prevail one day. She has done horrible things to our family members.
