As a young, pregnant, stray, Momma's early life was harrowing. Then, when she was brought into a local animal control, she faced almost certain peril, but thankfully St. Louis Pet Rescue took her in, and she was able to have her kittens in a safe environment. She was a great mom to her kittens! They have all gone on to families who love them.

Momma appreciates and loves her foster mom but is ready for a family of her own. At four years old, she has been in rescue for three years and does not understand why.

Momma is a delightful cat, funny, entertaining, and vocal. She will listen to how your day was and will tell you all about hers. She also loves to be brushed and will even let you brush her belly!

A beautiful girl with gorgeous green eyes, her legs are on the shorter side, which makes her unspeakably cute!

Momma loves people. She doesn't mind other cats if they do not want to be friends and does very well with older, smaller dogs. Momma hopes when you think about adopting a furry family member you will consider her. Will you make her dreams come true? She's such a good sport and has been waiting for so long.
