QR Code Link to This Post Nick and Diane are eight month old kittens.

They had a rough start in life. They were living outdoors with no siblings or mom for comfort. They were trapped individually and brought to a local animal control.

Nick is all boy. He loves to play! Nick has the loudest purr. His foster mom can hear him from across the room! If you adopt them, you won't need a sleep machine, Nick will lull you to sleep with his purring! Nick is a cuddle boy. He likes to nap next to his foster mom.

Diane has the most beautiful, golden, amber eyes. Her fur is soft and silky. Diane LOVES to play. When she has captured her 'prey' she carries it proudly for everyone to see! She also enjoys sleeping in a sunbeam.

Diane was very scared when she got to her foster home. She has been working diligently to love and trust people. Although she may be shy when she first arrives, her foster mom is confident she is ready to make a delightful family member in her forever home!

Nick and Diane are bonded and want to be adopted together.

Are you the family who is going to make their dreams come true?
