QR Code Link to This Post We are a elderly couple with approximately 3 cords of oak hardwood wood cut to 4 threw 8 foot logs. Looking for some strong young person(s) who will cut and split it to 16 inch lengths. We will give you half the wood for free for your trouble. Bring your own chain saw and fuel mix, log splitter or you can use a splitting maul and wedges. We also have a electric hydraulic log splitter you can use too. We also have a trailer that will carry about 1/2 cord at a time that we could use to get the wood to your place if you are local to Hudson.

We will also give you a 32 inch and 19 inch HDTV if you do not want the wood but want to cut up the wood for us. These would make real good Christmas presents for your preteen and teen child.

Hope to hear from you.
