QR Code Link to This Post Looking for 5 names and numbers of anyone you may know that may be considering solar energy for their homes. Solar is very easy to acquire now in NJ with all of the federal and state clean energy subsidies that are available. There are no out of pocket expenses anymore either. We can meet and exchange the 5 names and numbers for the \$100. You may know a family member, next door neighbor or co-worker or even yourself that may be interested. They just have to have an open mind to it and be ok with receiving a phone call and setting up a free consultation. You want to let them know ahead of time that a friend of yours works in solar energy and will be giving them a call to see if their home will qualify for the program. 908-267
