QR Code Link to This Post We are looking for housewives and older women who want to make a little extra cash and have some fun. We are shooting a private video series (it will not be distributed anywhere) where the women wear masks (optional) and co-star with young male actors. So your identity is safe because your face is hidden (if wanted) and the videos won't be distributed. Just you and your co-star in the room.

Please reply with pics, age, and location for more.
