QR Code Link to This Post Ever since Donald J.Trump -WON- the Presidential election November 8th -2016, the American people have watched the so called american-democrat party leaders and the Snowflake fake news media assume the role of (propaganda) extremists, as anyone knows a extremist not only seeks to injure, destroy or carry out violent acts, -but they love to promote trouble and most of all the character assassination of anyone near Donald Trump. They are misinformation, chaos and disorder this is their Resist, (-lies-) Right now they are conspiring inside the Whitehouse and outside the Whitehouse too attempt the removal of Donald J. Trump our elected President by trying to paralyze and mislead their intended victims the citizens of the United States of America. This is totally -UN-AMERICAN and a disgrace to the words "human being"not to mention calling yourself a American.

[-The Resist Trump organized movement-] This is a real conspiracy if you've ever seen one, period

The majority of

"propaganda" extremist attacks and tactics actually do not involve murder and mayhem, but "they are planting the seeds of this sick idea"across America with their hate filled deplorable rhetoric that they push across America day in and day out, most extremists tactics are carefully planned, organized and crafted to promote fear, insecurity, intolerance and turmoil for a twisted radical agenda. **Democrat leaders or the new world order socialist officials here in America should be screaming loudly from the top of their lung's that this is immorally "wrong" they don't..speak out on it-? (why)*because their terrified of the outsider DONALD J.TRUMP the real Hope and real Change.Their worried and terrified about the loss of their power and control, no more business as usual for them!

Now in all reality's with mental and verbal propaganda extremist it is often more deadly and farther reaching than any single act of violence because this kind of deplorable rhetoric infects and spreads like a fast moving cancer,we're seeing it everyday! *deplorable hate filled character assassination rhetoric and attempted brain washing by the "left', especially the fake news Hillary lovers* It only takes one crazy nutty buddy to do something stupid and they know it.! [=Consider and Remember NEVADA=] -SAD-, *TALK ABOUT HORRIBLE ROTTEN PEOPLE-- I WOULDN'T LEAVE MY CHILDREN NOWHERE NEAR THEM,-THEY FIT THE DEFINITION OF EVIL PERFECTLY*

Most Americans would like to think and believe that democrat (*leaders-?) and most of their followers (Left Wing Fake Media, -"Resist") are fair minded, responsible peace loving people that understand the importance of -unity for the greater good of the American people and the country as a whole. *U.S.A*

Unfortunately somewhere along the road a long time ago some of them took a hard left turn and now they have many of the same "propaganda" characteristics as a

terrorist. They are to oppose. They spread hate and fear to the innocent people living in this country. They are to the innocent children.

Let's see if we can clarify the actions of extremists and describe the behaviors of those who call themselves "democrats" and "Resist Fascism" (lost)-

First- extremists seeks to destroy and ignore the U.S.

Second- extremists is sneaky and lying, or they are geeks who use the message of hate and dehumanization). Resist

-Third- extremist verbally and sometimes physically attack anyone that opposes their doctrine or beliefs.

[- may be their emotionally delusional and psychologically lost-

Fourth extremists try brainwashing their followers and everyone else with lies deception or partial truths, half the facts in an effort to gain the support of the uninformed and gullible Americans. Just look at the media platforms horrible

Then extremist always try to indoctrinate their children and ours (pens so they believe in all manners of perversion, lawlessness and opposition.

The extremist is happiest when he/she or the child has created conflict, obtained power on the weak minded or stupid and forced their national agenda on the

American people. *The resist Trump Media and many others are trying this today*

At some point, rational individuals see these Democrats and Socialist Fascist as not only evil but as psychopaths that will say or do anything to keep power while spewing their liberal garbage.! SAD.

On November 12, 2016 in New York. The election of Donald J. Trump as president has sparked emotionally disturbed protests in cities across the country, not to mention the planned and organized ones by the haters!

At that point, we have what could be called the "Trump Effect." (victory) Now that the American people have spoken- the Political left propaganda extremist are in attack mode, without any regard for the message that was sent by the American people "now we have, (-organized chaos and disorder-)

It is the intent of these Democrats and professional (organized) followers to topple all that is good and right in the greatest nation on earth. They seek to keep power and build empires that prey on the weak, uneducated, gullible and the permanent entitlement class they created but falsely claim to represent. They get the vote - They get the power- They get-rich with schemes and scams- and lead by lies and deception constantly.. ect.

*We the people of the United States of America need to wake up and support the fundamental concepts that made this country great and is still great! "BUT' we will be devoured by lies , deceit, half truths, educational extremist, economic extremist, bureaucratic extremist, social extremist, technological, political *MEDIA extremist (especially)*, illegal alien extremist and armies of -self proclaimed victims- espousing a terrorist mentality.

Many have tried to draw parallels between the Tea Party groups and what you are witnessing in orchestrated protests, but this is like comparing your family dog that barks to protect it's owner to an abused fighting pit bull that will attack anything that gets in its way.

WE should have learned from the last 8 years-! WE spoke out against them !ðŸ%œ
