QR Code Link to This Post Very nice condition. Has a two year old ATK HP32 crate engine with approximately 3000 miles. Dart vortec heads, roller cam. 350hp/400 torque. 2500 rpm torque converter. Two year old Doug's ceramic coated side pipe headers. New rear tires. New carb, intake, fuel pump, rebuilt steering assembly. New rear tires. New core support in 2015. Stored at Bairs Corvettes in the winter. Show winner two summers ago. Being a 40 year old car, it has some faults. Power window assemblies need rebuilt. They work but don't go up all the way (they go up about 95%) Tach, speedometer, and odometer quit working in the past year, so miles are not exact. Car runs great with lots of power. Very solid frame. This has the silver anniversary paint, but is an original silver car. Recent oil change. Has a small loan so I would have to meet a prospective buyer at the bank. Text
