The Dart is mostly complete (missing Radiator) and definitely worthy of a project car Restoration. This is a slant 6 car with three on the tree making it a very easy 360 with 5sp conversion. As you can see in the pics, the floors will need to be patched, as well as the trunk floor. The rockers are in pretty good shape, the lower quarters are showing minor rust, but can be repaired. This is a plus if you are famillure with Dodge of this age. This the first year of the UNIbody for Dodge and this one is in good shape, Tork boxes and spring mounts are solid. This car is in need of complete restoration of all parts, and is by no means a drivable vehicle. No you can't come out spend a few hours on it and drive it home. The Dart does have a good clean title.

I have over 250 pre 1972 Ford cars and trucks and several 1958-1959 Edsel's along with a few other makes and models.
