QR Code Link to This Post We are a sustainable farm and Permaculture community, and we have an ABUNDANCE of hides (goat, sheep, cow, yak, alpaca, rabbit, pig), but we don't have the skill (or time) to turn these hides into the beauty/art they deserve. We have the ability to distribute, or you can take that on, if you have an established market/skill. Lots of flexibility!

We would like to make any/all of the following:

Apparel (indigenous/simple design)

Loin Cloths (fancy)

Archery Accessories

Drums

Survival Accessories

Moccasins

(we're open to any/all other ideas, as well)

Please message me with your experience, your availability, an overview of your current situation, and a general idea of what you might hope to create/get out of a relationship like this if it ends up being a.
