Just took this off my truck (was on a Chevy Colorado) as I no longer need it. It is a UWS truck tool box 60 x 20 x 15. Also includes the sliding parts tray. The bad news is that the mounting hardware broke as I was taking it off. Also, my key isn't working on the lock. I tried oiling it but still a no go. New mounting hardware and new lock cylinder can be found online for around \$15. Price reflects fixable.
