QR Code Link to This Post I am looking for models that would like to help me diversify my portfolio. I am looking for women that would be interested in modeling their feet. Photos can include full-body portraits or just feet based on your preference. I am available to meet for sessions in Milwaukee or Madison. Sessions take place ideally in a public garden or natural area. This is a very fun and unique experience!

If you are interested and would like to meet me to see if this is something you would be interested in then let me know. I look forward to hearing from you. Thanks for!
