QR Code Link to This Post After losing our pug of 10 years to a degenerative spinal disease 2 and 1/2 years ago, we are finally ready to bring a new family member into our home. We own our own home and have a fenced in yard for potty and play time. We currently have 2 friendly, fixed cats and no children. We are in no hurry and have no problem waiting so if you are expecting a litter, please feel free to reach out to us as well. We are not interested in breeding so he/she doesn't have to be registerable, but we do ask they have or will see a vet for checkup and vaccinations current for his/her age. Adoption fee is negotiable but must be reasonable to breed and health standards.!
