1998 Registered Quarter Horse mare. She's a lovely chestnut standing at 14.3hh or maybe a touch taller. Nothing totally fancy but no buck, no rear, no bolt just an all around good girl. Has supposedly had some extensive trail miles in her past and would be great addition to a trail program or even a beginner W/T lesson horse. She rides in a snaffle or hackamore and goes any direction you point her. Gets along well with other horses and easy to catch. She's the perfect extra horse to have around for friends and family to ride, you just get on and go. I would say anyone could ride her and not have trouble, but I always suggest for newbies to get some professional help. Owners only looking to sell because she's switching disciplines. This mare is UTD on all cares including deworming, farrier, coggins and vaccinations. Willing to sell her with her hackamore and winter blanket. Rehoming fee is \$1000 obo, located in Aurora, WI (1.5 hrs North of Green Bay). I have a current video available.
