QR Code Link to This Post I have a 2003 yz450f that I am selling. It is a very strong running bike. I put a new wiseco top end kit in it last winter and it has maybe 10 hours on the bike since then. Always garage kept and I serviced and washed it after every ride.

Lots of new parts

- Top end kit with wiseco piston
- Cometic gaskets
- Brand new kickshaft assembly with new engine case on that side
- wheels are painted black with blue spoke skins
- new sear cover with a little cut in it
- carb rebuilt

The only bad thing is the last time I was riding it I noticed oil leaking and I'm not sure where from. I love this bike but I am moving soon and need to sell it. \$1500 obo. I will reply faster by text
