QR Code Link to This Post I have a nice Northfield No. 7 (25"X 9"Capacity) Single Surface Planer. It has a 5 hp single phase motor that runs the planners knives and it has been tested. The attachment on the top of the planer is a blade sharpening system that has be tested as well. It is self feeding and that motor is a small 3 phase motor. (3 phase motors can be ran on single phase with a static phase converter). I also have a dust collector system for it. I AM OPEN TO OFFERS AND I CAN LOAD. Call or text with the reply button above.

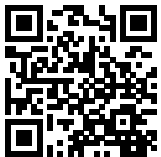

Easy to move with a small forklift or good size skid steer

Keywords. wood, woodworking, craftsmen, woodsmith, j liner, jointer, joint, sander, planner, plain, tool, saw, rip, table, build, rough cut, shop, garage,,
