QR Code Link to This Post Cute boxer& lab puppies puppies have been given the okay to be adopted, they eat solid food 1/3 cup three times per day, boxers can have skin sensitivity and although ours does not we have all dogs on grain free food. They have their first shot, birthday October 26th. Tiny is the smaller of the pups, she is the most cuddly. Brownie got her name because she is chocolate brown. And Helga is the biggest, she looks most like a lab to me. Of course these are just Nick names, they can be changed.

We are asking \$300 fee. This is less than half of the cost of their parents (Labrador and boxer) but for anyone considering either breed or a family dog in general, it's perfect. If you would like to add one of these sweet girls to your family please tell me about.
