QR Code Link to This Post We offer creative office solutions to entrepreneurs, freelancers, designers, and developers who would like to work in a collaborative space/office share to provide a working space for others like us, including start-ups and organizations.

We aim to have an active community who thrive to network with others like ourselves and sometimes find the need to collaborate, share with, and support one another in this new age of the "mobile office."

Our collaborative spaces are ideal for individuals or teams who feel confided or distracted working from their homes and simply need a desk away from home without any long-term lease commitments.

We aim to be a professional but energetic and fun environment where you can cost-effectively hold a small meeting or hash-out a group work session. Meeting room space and private offices also available!

Features:

- 1) 24/7 access
- 2) Business center resources (Fax/Printer/Scanner)
- 3) Fully secure internet that's monitored 24/7 by our IT team

4) Quiet and professional environment
