QR Code Link to This Post I have a few sets of painted white wooden reindeer left. Once these are gone no more will be made. There is 2 different styles as seen in the pics. They are 5' tall to the top of the antlers. Sleigh is 6' long x 3' wide x 4' tall.

There are only 2 sets of the reindeer with the U legs left. They are made with 3/4" quality plywood that will last. Not the thin stuff like some others. A set is one with antlers and one with doe ears as pictured.

\$150.00 a set

There are only 3 Rudolph deer with antlers and glitter red nose. They have the straight legs. And are made from 3/4" Extira treated exterior panels that are moisture, rot and termite resistant. This stuff is made to be outside and cost 3 times more that plywood. I have an unpainted set that has been outside 24/7 for 2 years still in excellent condition.

\$100.00 each

There are only 4 deer which can have either antlers or doe ears. They have the straight legs. And are made from 3/4" Extira same as the Rudolph's. \$100.00 each

Only 1 sleigh or sled left!! It is made from 3/4" Extira same as the Rudolph's. \$300.00

I have put a set together so you can see what it would look like. It's one Rudolph, 2 deer with antlers or doe ears you choose, and the sleigh. Like it sets its 15' long. 500.00 for the set
