Industrial Thrift Store

Below is a bit of about our mission/concept of repurposing.

We are America's largest industrial thrift store! We have yards in Denver, Chicago, Atlanta, Dallas, and Philadelphia. Our main office is in Denver 303.321.1471

First off, what are some examples of repurposing? It is taking a byproduct or waste stream such as a retired street sweeper brush and giving it a 2nd life as a backscratcher for horses or cattle. It is taking a decommissioned fire hose and giving it an extended life as a boat dock fender. It is taking an obsolete ski lift cable and giving it a second life as hand railing in a luxury condo building.

In your efforts to reach Zero Waste, do you have any byproducts or waste from projects now, or coming up, that would be a candidate for repurposing? Or, do you have any surplus/obsolete inventories or idle equipment you'd like to deal on. . . maybe items that have been depreciated out, over orders on a job, inventory from a project that got cancelled, etc.?

We look forward to being a resource on any byproducts, waste, inventories, or equipment that would be a candidate for repurposing!

To date, our company has helped a number of organizations through repurposing: US Army, Denver Broncos, City of Chicago, Nestles, BNSF Railroad, Oklahoma State University, Purina, US National Forest Service, Campbells Soup, State of Wyoming, Paramount Pictures, and many, many more!
