

## 2018 NUCs (145 USD)

Location **Washington**  
<https://www.genclassifieds.com/x-779608-z>

QR Code Link to This Post 2018 NUC's

Our NUCs come with about 3 pounds of bees already established in a five frame colony. Raised in Western Washington these bees (Carnica) are quickly becoming a favorite of the Beekeepers because they are easy to work with, hardy, produces a large amount of honey and are good pollinators. A NUC is a small colony of Bees consisting of brood, larva, eggs and a frame of pollen and honey giving them everything they needs to grow quickly.

## How To Order

We are expecting a large volume of NUC orders this year, and we will delivered them according to the date ordered. To place your order now, please visit our online store at <https://woodsbeeco.com/> where you can pay in full or make a \$50.00 deposit which will need to paid in full by March 1, 2017. You can pay with debit, credit card, check or cash. We will contact you shortly after receiving your payment or deposit to confirm the receipt of your order.

## Picking Up your NUCs

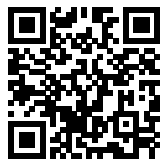

We will contact you again to finalize the pickup details. Our pickup dates will be in April or May 2018 weather depended. For all pickups we recommend coming either early morning or late evening to pick up the NUCs. If you are not able to come at these times, please let us know ahead of time so we can make other arrangements. Pick up location will be in Centralia.
