Gas prices are going up so it's time to buy a Prius :)

I feel sad to let this fantastic car go after it has served me well for more than 4 years. It has been very comfortable and reliable all the way through. This amazing car is truly a gas saver: 46-48 miles per gallon during summer time!! Isn't that wonderful ?!

You simply drive and save!

It is a 2006 Toyota Prius. The car has 149,100 miles and runs great. The car is in good condition inside and out. Smart key system makes you feel advanced! Non smoker and no pets. It runs very nicely and I had the battery recently repaired so it runs smooth just like new. And for only \$ 4650

Driving this car is always a pleasure. You will definitely love:

- Keyless Entry System
- Power Windows
- Navigation
- Bluetooth Calling system
- Air Conditioning
- Tinted windows
- Rear view camera
- MP3 6 CD changer with amazing JBL sound system
- am/fm stereo radio
- Cruise Control

- Traction control
- Stability control
- Automatic brake control
- Child safety locks
- much more

This could be a great Christmas present for you and your family. Take a look at it, drive and fall in love with it!! You will be amazed!
