Is the IRS ruining your life? Tax problems not only affect your current finances, but also have an impact on your health and well-being. Will you have to use all the equity in your house or deplete your child's college fund to get the IRS off your back? Will you ever be able to get a car loan or a new mortgage with a tax lien on your credit report? Do you owe the government so much that you will never be able to pay it back?

I have over 20 years of experience in helping people like you. The IRS has an offer in compromise program where you can settle for far less than what you owe. If you don't qualify for that program, there are installment plans (even a Partial Pay Installment Agreement) and noncollectable status that are available.

Contact me at . I am available by.
