QR Code Link to This Post Legends Thai Cuisine is hiring part time driver.

The schedule availability is Dinner shift 5pm to 9.30pm

The shift pay is \$35 and you keep all of your tips. We provide free uniform and our delivery radius is 5 miles. We feed you one meal per shift.

This job is not hard, there is a few side jobs.

Please have a neat appearance, be punctual, have a reliable car, and understand that if you don't show up, or call out sick last-minute more than once, we will have to let you go. We are a small restaurant, so when we get slammed with deliveries and dine-in orders, we cannot be short staffed. You'll otherwise find this nice and laid-back employment. Help out where you can and management will be flexible with you.

p.s. while this job is perfect for a student, we have been having a hard time with young applicants who don't seem to really understand punctuality. I want to underscore that we would be very welcoming to older applicants, even if you don't necessarily have experience recently as a server. We are looking to hire starting this week.
