QR Code Link to This Post I'm in the process of starting up a new online publication, and I'd like to include a fashion section. This would cover things like fashion trends, what to wear lists, street style, and interviews with Texas-based designers. There is a photography component to this as well, but arrangements can be made if you need a photographer.

Starting off, this is not a paying gig, but it will come with perks (access to events, products to try, etc.) but the goal is to make money. Ideally, this would be something you can do in your spare time for now, with a pretty simple schedule. If this is something that interests you please send over some information about yourself and any writing samples if you have.
