QR Code Link to This Post Hey there ! My name is Meagan, I have been house sitting and pet sitting for about 4 years now for those looking for someone to look after their house and pets while they are gone. I am recently divorced and have no children, I use this as an extra source of income and being able to spend time with pets being that I am a huge animal lover. I also work at a primary care clinic from 8 to 5. I am also happy to do any kind of cleaning or things around the house that need to be done. I am reliable and responsible, I have a clean record and am drug and alcohol free. I can also add reliable references. Thank you for your consideration , I look forward to hearing from you soon :)

PS- I am happy to answer any questions you may have.

ct..

\$30.00 per day (depending on how much work is done)
