QR Code Link to This Post He is 12 months old, close to full grown and very Big! and very sweet, knows a few commands pretty well. We rescued him and one of us is allergic to him. He does shed!

We would like to be able to still see him occasionally for the first couple weeks because he will miss us (we will miss him too) and he might even cry for us. He is very sweet natured and loves other pets and kids. He likes to play outside with his owners, running around and chasing. He comes with a xl wire kennel for when you need him to not be in the way or can't bring him with you on a short errand, we just got this yesterday because he ate some shoes while we were gone one time (when we couldn't take him along). He needs someone who is retired or a stay at home, etc. There is a rehoming fee of \$350 to help insure he goes to a home that can meet his needs; interview as well. Reply by email with your number and I will call you. Local in Anchorage, Wasilla, Palmer areas please.
