QR Code Link to This Post Who likes saving money? We all know that both gas, and electric rates will spike for the winter season. Why not start saving some money on your bills every month? Seriously there is no charge to be a customer, saves you money, you get awesome benefits for being a customer (all still free, and included automatically), and you'll be taken care of with someone who cares about their customers. I don't let anyone go without being helped. This is so the time to be a customer. Seriously why not take a chance, and I promise you won't be disappointed! Heck you even get a free gift that you get to keep after 60 days! Seriously have you heard a downside yet?

What do you all think? Serious answers :)
