If you've ever gone through the stress and expense of replacing your roof, the last thing you want to do is risk having to do it again when the next storm hits. At Precision Roof Care Hawaii LLC, our team of Experts provide long-lasting roof repairs and replacement from most any storm with our proven industry-leading installation process. This painstaking process is what makes our roof solutions tougher than most others. That all adds up to roofing systems that last longer, protecting your family and home for years beyond roofs installed by ordinary standards.

Our 16 Point Roof Inspection includes checking for:

1. Proper shingle overhangs at gutters, and eaves.
2. Measure for, and calculate for proper attic ventilation.
3. Inspect attic intake vents for blockage.
4. Interior attic inspection for moisture, or dry rot.
5. Inspect all storm collars at pipes for proper seal.
6. Inspect all valleys for cracks, and determination.
7. Inspect roof for missing shingle granules.
8. Check gutters, and downspouts for blockage.
9. Inspect fasten method used from original installation.
10. Inspect flashings at all walls.
11. Check for loose shingles.
12. Inspect seals on shingles to help prevent wind damage.
13. Inspect all pipe flashings for cracks.

14. Inspect all Attic vents for holes or cracks detracton.

15. Inspect all roof boots for any holes for any leaks.
16. Check all roof shingles for any brittle, or missing shingles.

Call us or email us to set up your 16 point roof inspection for only \$
