QR Code Link to This Post Hi, I am an independent representative of a US based company that is just launching its health/wellness product line nationally. I need people that are looking for part time and or full-time employment. The work schedule is ours to make so it is remarkably convenient.

This position is a full commission position and 1099. We work from home, but I travel on a fulltime basis. My focus is to work around your schedule and help develop both a sales and customer base. We earn our income collectively as a group and the company pays on a weekly basis. The income potential is truly unlimited. I am looking for help in all US states!

Due to the fact that we are paid collectively the training and on-going support delivered is the best available hands down.

So if you find yourself in a position where you desire more income, have a remarkably tricky schedule or are in a place where a fulltime change is needed consider reaching out to me. I did this very very spare time and many years ago it became a fulltime, flexible career with an income people can not earn thru traditional work or business ownership.

Thanks
