Do you or someone you know sometimes (or chronically) pretend to be sick in order to gain attention, sympathy and care?

Major cable network and award winning production is seeking individuals who fake physical or mental illness to participate in a new television project.

Do you or someone you know:

- * Pretend to have symptoms that don't exist?
- * ALWAYS seem to be SICK with something and NEVER seem to get better?
- * Hurt yourself to show evidence of illness?
- * Have you ingested something that has made you sick or sicker?

We are raising awareness of this very important issue

If you or someone you know exhibits these behaviors, contact us today to tell us your story. copy and paste link into browser to apply thanks!
