QR Code Link to This Post Hello,

We'd like to replace three standard indoor doors in a condo:

- Two doors are 30x80 for bedrooms
- One door is 24x80 for bathroom

The frames are in very good condition. The new doors are not pre-drilled - they'd need to have the hardware holes created and the hardware installed.

Please send me your estimate and your phone number where I can reach you.

Thank.
