Kitchens and bathrooms are two of the most important spaces in our homes. And they should be two of the most comfortable spaces in our homes, too. Unfortunately, this is not always the case. Older homes might have kitchens and bathroom that are outdated and not configured for modern uses.

If you live in a newer home, your life circumstances may have changed since you bought the home. Whatever the reason, if your kitchen and bathrooms are inefficient vestiges of the past, you aren't using your home to its full potential.
