For your consideration we offer Edmond's Endgame, a wonderfully proportioned, proper little package with perfectly tiny ears. Edmond's Endgame is a bay tobiano gypsy colt with one blue eye, one brown eye, he is a quite the sight to behold. Born mid-Feb 2017 he is only 10 months old and quite the looker. Genetically tested homozygous black, he carries one copy of the agouti, and tobiano genes. Untested for W20 I do suspect he may carry one copy of it. Was told he is PSSM1 Neg.

He is registrable, and will come with all paperwork required to have him registered with both the GHA (Gypsy Horse Association) and the GVHS (Gypsy Vanner Horse Society) with a name of your choice. That is right you can choose his registered name.

Utd on shots, worming, and hoofcare with health records provided.
 Estimated height at maturity is between 13.2hh - 14.3hh, currently stands 12.2hh but has growing to do.

Short term contract with board is acceptable but must be short term. Will not leave property until paid in full. Checks accepted though bill of sale will not be signed until funds clear. Delivery at an additional cost possible. Don't let this deal pass you up.

The perfect Christmas present for the horse lover in your!!!
